## Common Cylinder Core System

This innovative system separates the Lock Housing from a Common Cylinder Core providing you with a simple yet complete locking solution.

The common cores can be installed and removed instantly through the use of a unique core removal key. With their compatibility across all lock housings, our program gives you total flexibility to key any different combination for your project and enable future re-keying changes when required.

**COMPLETE  
= LOCKING  
SOLUTION**

## Drawer Locks

Round Lock - Pg 6

Square Lock - Pg 7

Double Bolt Lock - Pg 8

## Cam Locks

Cam Lock - Pg 9

Lever Lock - Pg 10

## Product Features

- Removable core system
- 100% interchangeability
- Easy to maintain or re-key
- All cores are compatible with all types of housings
- Drawer, Cam and Lever type housings sold separately
- 10 different key changes and a mixed key option
- Custom key numbers also available as special order
- Master and Core Removal Keys sold separately

Plastic key cap features **MICROBAN®**  
Anti-Microbial Protection
