Product Description

The new Made to Stand Out catalogue of knobs and handles is here! The personality of the new collection for 2024 stands out for their daring character; for their creative rebelliousness; and for shaking the foundations of everything that we have designed until now at Viefe. It's a new beginning.

THE LAUNCH OF OUR FIRST DOOR HANDLES We have made a move into the category of door handles with long models created for sliding doors, entrances and large cupboard doors. They come with the back to back installation system and also in the one sided system.

Long models for doors: **Duo big, Luv big, Moon.**

LONG HANDLES, NOW EVEN BIGGER Our iconic long handles have grown with a thicker diameter of 20 mm. This new characteristic not only helps to emboss its original look, but also makes your interior more distinctive and exclusive. Long models with 20 mm diameters: **Riss big, Duo big, Luv big, Moon, Nobb.**

WOOD, THE NATURAL PROTAGONIST The spirit of wood emanates from Viefe through details which really make a difference to our range of certified wooden accessories, while our new finishes flood your interiors with extra special charisma. All our designs are a pleasant surprise as they are full of freedom. Long wooden models available in a 20 mm diameter: **Duo mini, Duo big, Luv big.**

NEW FINISHES: TITANIUM BLACK AND MIDNIGHT BLUE The depth of the new titanium black finish and the serenity of the new midnight blue have made a significant breakthrough in our range of accessories. Their particular texture and personality transform the perception of our accessories completely and of the surroundings in which they are fitted.
